GSA ORDER

SUBJECT: [Information Technology \(IT\) Standards for Internal GSA Workplaces](#)

1. Purpose. This Order transmits the information technology (IT) standards for all new workplace projects, including new construction or alterations to existing space, for all GSA offices.
2. Background. This Order is in support of GSA's initiative to create model workplaces that support collaboration, improve productivity and utilization, and reduce costs. GSA IT and the Office of Administrative Services (OAS) have developed a set of standards to ensure that GSA internal workplaces can function and be managed as a shared resource. These operating principles have been established to provide consistent and standardized workplace protocols and IT configurations.
